FLOURS, J-CRUMBS, RUBS, SEASONINGS, AND MORE

## THE NOTHUM WAY

Since 1971, Nothum Food Processing Systems has been a leading manufacturer of batter/breading lines for the poultry, seafood, alternative protein, and appetizer industries.

We're a third-generation family-owned business, and we've built our reputation as experts in further processing by focusing on what matters: Making the very best equipment and always putting people first.

## Why It's Different

- Multiple coatings from traditional flour to crumb
- Low-charge breading system
- Incline chain system preserves coating integrity
- Automatic feed system for consistency and accuracy

## The Bottom Line

- Payback in less than 6 months
- Increases yield while decreasing breading waste by as much as 50%
- Less downtime and changeover time
- Decrease dust and allergens

Ask us how the VersaCoat improves your production line.
